## *Why choose a Morrifield "Moneymaker" Commercial Tunnel house?*

- Based on the same proven design for more than 30 years and totally New Zealand made by a Southland family business.
- Strong construction, anodised aluminium frame for low maintenance and extended cover life. Engineered truss design suitable for supporting crops.
- Polythene extreme cover has a four year warranty against UV breakdown.
- Optional twin skin covers for added insulation, available on request.
- Drawings available for Council Building Permit applications.
- Tanalised timber base can be supplied but is an optional extra.
- NZ wide delivery, quote available on request.

*The "Moneymaker" range of commercial tunnel houses are designed for the more serious grower. From market/community gardens, cafés, nurseries to lifestyle blocks, the possibilities are endless. We offer experience, knowledge and quality workmanship and will also assist with building preparation and permit applications.*

## Features

- The range is available in 4.2 metre and 7 metre wide and up to 32 metres in length, although possibly longer if required.
- Doors on each end and tilt vents, allow ventilation.
- Fronts and backs may be fitted in polycarbonate sheeting if required, but are an additional cost.
- Single skin and twin skin covers available. The advantage of the twin skin is it's ability to act like double glazing, which in turn promotes faster growth and extends your growing season.
